

Gilbert Ison Requitud Jr.

P: (63) 9518936631 | E: gilbertrequitud@gmail.com | 225 Brgy. Coralan, Santa Maria, Laguna

Introduction

Results-oriented student with a strong passion for cybersecurity. Possessing a solid foundation in Python, AWS Cloud Computing, and Networking, I am eager to specialize in cybersecurity to develop advanced technical skills and contribute to safeguarding digital systems. Seeking opportunities to apply theoretical knowledge through practical projects and internships to build a successful career in the cybersecurity industry.

Experience

1. Worked in ANZ Cybersecurity Job Simulation
 - Design a phishing email simulation
 - Interpret phishing simulation results
2. Worked in Master Card Cybersecurity Job Simulation
 - Social Engineering Investigation
 - Digital Investigation
3. Worked in Telstra Cybersecurity Job Simulation
 - Responding to a malware attack
 - Analyzing the attack (Technical)
 - Mitigate the malware attack Incident Postmortem

Expertise

- Solid understanding of programming concepts and experience with (Python, Bash, Powershell).

Technical Skills

- Networking: Strong foundation in networking fundamentals, TCP/IP protocols, and IT infrastructure.
- Linux: Proficient in Linux environment, including kernel basics, shell scripting, and firewall configuration (iptables).
- Windows Systems: Experienced in configuring and managing Windows Active Directory.

- Cloud Computing: Proficient in AWS cloud services, including [EC2, S3].

Projects

- Actively build and maintain a cybersecurity homelab, simulating an Active Directory environment with monitoring tools setup.
- AWS Load Balancer

- AWS S3

- Downloading WordPress

Education & Qualifications

- Dean's List [1st – 2nd Semester, 2nd Year]

Certificates

1. ANZ Cybersecurity Job Simulation Certificate

- Threat intelligence analysis
- Vulnerability management
- Incident response
- Cybersecurity operations

4. Cisco Introduction to Cybersecurity Certificate

- Cybersecurity fundamentals
- Common threats and attacks
- Cybersecurity best practices
- Introduction to cybersecurity careers

Cisco_Introduction_to
_Cybersecurity.pdf

Certificate of Course Completion

Gilbert Requitud

has successfully achieved student level credential for completing the Introduction to Cybersecurity course.

The student was able to proficiently:

- Explain the basics of being safe online, including what cybersecurity is and its potential impact.
- Explain the most common cyber threats, attacks, and vulnerabilities.
- Explain how to protect oneself while online.
- Explain how organizations can protect their operations against these attacks.
- Access a variety of information and resources to explore the different career options in cybersecurity.

5. Building Your Digital Backbone: Unlocking The Secrets of Network Communication Certificate

- **Network architecture:** How networks are structured and organized.
- **Network protocols:** The rules and standards governing network communication (e.g., TCP/IP, HTTP).
- **Network devices:** The hardware components that make up a network (e.g., routers, switches, modems).
- **Network troubleshooting:** Identifying and resolving network issues.
